Moscow Engineering Physical Institute
(MEPhI), Russia

Annual Summit on Biomaterials and Tissues happened during June 08, 2020, 2020 is an international Webinar for frank and challenging dialogue, exploring possibilities and dilemmas associated with advancement in biomaterials field.

Our event brought together materials professionals, thought leaders, doctors, researchers, entrepreneurs, professors, directors. The participants were encouraged to share experience, insights and strategies for permitting the professional well-being of the entire materials science team.

The format of the meeting involved a mixture of keynote talks, presentations on topical issues, and extensive panel discussions, as well as the introduction of interactive working groups, and plenty of scheduled time for official and informal networking.

The event was carried out through different sessions, in which the discussions were held on the major scientific topics but not limited to: Biomaterials, 3D printing, Tissue transplants, Bio imaging, Implants, Recent works in biomaterials and more.

The event was embarked with an opening ceremony followed by a series of dynamic lectures delivered by both the members of the Keynote forum and speakers.

The Conference committee would like to present heartiest acknowledgement to all the speakers and listeners whose support and active participation helped us in making the scientific webinar successful with their insightful presentation, talks and interesting discussions.

We would like to praise all the award winners for their meritorious performance in the field of materials and are grateful to all and sincerely wishes them success in future endeavors! .
