Our complete Author Guidelines are available at www.futuremedicine.com.

**Author Guidelines**

**Audience**

The audience for Future Medicine titles consists of clinicians, researchers, scientists, decision-makers and a range of professionals in the healthcare community.

**Submission**

We accept unsolicited manuscripts. If you are interested in submitting an article, or have any queries regarding article submission, please contact the Head of Commissioning (c.barker@futuremedicine.com). For new article proposals, the Editor will require a brief article outline and working title in the first instance. We also have an active commissioning program whereby the Editor, under the advice of the Editorial Advisory Panel, solicits articles directly for publication.

**Peer review & revision**

Once the manuscript has been received in-house, it will be peer-reviewed (usually 2–3 weeks). Following peer review, 2 weeks is allowed for revisions (suggested by the referees/Editor) to be made.

**In-house production**

Following acceptance of the revised manuscript, it will undergo production in-house. Authors will receive proofs of the article to approve before going to press, and will be asked to sign a copyright transfer form (except in cases where this is not possible, i.e., government employees in some countries).

**Article types**

For a more detailed description of each article type, please view our author guidelines at: www.futuremedicine.com

**Reviews**

Reviews aim to highlight recent significant advances in research, ongoing challenges and unmet needs.

**Word limit**

4000–8000 words (excluding Abstract, Executive Summary, References and Figure/Table legends)

**Required sections**

(for a more detailed description of these sections go to www.futuremedicine.com):

- **Summary**
- **Keywords**
- **Future perspective**
- **Executive summary**
- **References**
- **Reference annotations**
- **Financial disclosure**

**Primary research articles**

**Word limit**

Not applicable

**Required sections**

(for a more detailed description of these sections go to www.futuremedicine.com):

- **Structured abstract (Aims, Materials & Methods, Results and Conclusions)**
- **Keywords**
- **Introduction**
- **Patients & methods/Materials & methods**
- **Results**
- **Discussion**
- **Conclusions**
- **Summary points**
- **References**
- **Reference annotations**
- **Financial disclosure**

**Perspectives**

**Word limit:** 4000–8000

Perspectives should be speculative and very forward looking, even visionary. They offer the author the opportunity to present criticism or address controversy. Authors of perspectives are encouraged to be highly opinionated. The intention is very much that these articles should represent a personal perspective. Referees will be briefed to review these articles for quality and relevance of argument only. They will not necessarily be expected to agree with the authors’ sentiments.

**Special reports**

**Word limit:** 1500–3000

Special reports are short review-style articles that summarize a particular niche area, be it a specific technique or therapeutic method.

**Editorials**

**Word limit:** 1500–1500

Editorials are short articles on issues of topical importance. We encourage our editorial writers to express their opinions, giving the author the opportunity to present criticism or address controversy. The intention is very much that the article should offer a personal perspective on a topic of recent interest.

**Priority paper evaluations**

**Word limit:** 1500

Priority paper evaluations review significant, recently published primary research articles carefully selected and assessed by specialists in the field (not a paper from the author's own group). The primary research detailed in the chosen paper is discussed with the aim of keeping readers informed of the most promising discoveries/breakthroughs relevant to the subject of the journal through review and comment from experts.

**Conference scenes**

**Word limit:** 1500

Conference scenes aim to summarize the most important research presented at a recent conference in the subject area of the journal.

**Company profiles**

**Word limit:** 2000

Company profiles allow representatives from pharmaceutical, biotechnology, etc. companies to describe the work currently being carried out within their particular organization, relevant to the field of the journal in question.

**Key formatting points**

Please ensure your paper concurs with the following article format:

- **Title:** concise, no more than 120 characters.
- **Author(s) names & affiliations:** including full name, address, phone & fax numbers and e-mail.
- **Abstract/Summary:** approximately 120 words. No references should be cited in the abstract.
- **Body of the article:** article content under relevant headings and subheadings.
- **Conclusion:** analysis of the data presented in the review.
- **Future perspective:** speculative viewpoint on how the field will evolve in 5–10 years time.
- **Executive summary:** bulleted summary points that illustrate the main topics or conclusions made under each of the main headings of the article.

**References:**

- Should be numerically listed in the reference section in the order that they occur in the text.
- Should appear as a number i.e., [1,2] in the text.
- If websites or patents are included, please use a separate numbering system for them, i.e., start numbering website references at [101] and patents at [201] to allow the reader to distinguish between websites/patents and primary literature references both in the text and in the bibliography.
- Any references that are cited in figures/tables/boxes that do not appear in the text should be listed at the end of the reference list in the order they occur.
- Quote first six authors’ names. If there are more than six, then quote first three et al.

**Copyright**

As the author of your manuscript, you are responsible for obtaining permissions to use material owned by others. Since the permission-seeking process can be remarkably time-consuming, it is wise to begin writing for permission as soon as possible.

**Spelling**

US-preferred spelling will be used in the final publication.

**Figures, tables & boxes**

Future Medicine has a charge for the printing of color figures (i.e., each color page) in the print issue of the journal. We have no page charges and aim to keep our color charge to a minimum. The charge does not apply to the online version of articles, where all figures appear in color at no charge.
