

Chakras and Energy Imbalances in Patients with Urinary Incontinence and Sexual Dysfunction after Prostate Cancer Surgery

Huang Wei Ling

Medical Acupuncture and Pain Management Clinic, Brazil

Abstract

Statement of the Problem: Urinary incontinence, or the loss of the ability to control urination, is common in men who have had surgery or radiation for prostate cancer. In Traditional Chinese Medicine (TCM), urinary incontinence and sexual dysfunction are caused by Kidney energy deficiency.

Purpose: To demonstrate which are the energy imbalances linked to urinary incontinence and sexual dysfunction after prostate cancer surgery and how can we treat it clinically.

Methods: One case report. 68-year-old male patient. Started treatment for urinary incontinence and sexual dysfunction, after being submitted to a prostatectomy due to prostate cancer. He was also using medications for control the prostate cancer (anti masculine hormones). The patient had to use special diapers on the penis to contain urine. As the patient was not satisfied with the standard treatment he was receiving in Western Medicine, he searched for a TCM based treatment. He was diagnosed with Kidney-Yang deficiency. Treatment was started with Chinese dietary counselling, auricular acupuncture associated with apex ear bloodletting and moxibustion. It was performed measurement of the chakras, which resulted in no energy in any of the patients chakras (considering a scale of 1 to 8 in energy, all chakras were measured in 1). To replenish the energy of the chakras, it was started the use of crystal-based medications and homeopathy according to the Constitutional Homeopathy of the Five Elements based on TCM theory, developed by the author.

Results: With the instituted treatment, the patient recovered the ability to control urine and sexual function.

Biography

Huang Wei Ling, born in Taiwan, raised and graduated in medicine in Brazil, specialist in infectious and parasitic diseases, a General Practitioner and Parenteral and Enteral Medical Nutrition Therapist. Once in charge of the Hospital Infection Control Service of the City of Franca's General Hospital, she was responsible for the control of all prescribed antimicrobial medication and received an award for the best paper presented at the Brazilian Hospital Infection Control Congress in 1998. Since 1997, she works with the approach and treatment of all chronic diseases in a holistic way, with treatment guided through the teachings of Traditional Chinese Medicine and Hippocrates.
