13th International Conference on Vascular Dementia and Dementia

Abstract
We would like to thank all of our notable dignitaries for presenting us the wonderful keynote, speakers, conference attendees, students, associations, media partners and guests for making Vascular Dementia and Stroke 2019 a successful and splendid event. The organizing committee has hosted the joint event of 12th International Conference on Vascular Dementia and Dementia and 8th International Conference on Neurological Disorders and Stroke during March 14-16, 2019 at Sheraton Heathrow Hotel, London UK with the theme “Innovations in Diagnosis, Therapeutics, and Rehabilitation of Neurological Disorders and Stroke” and “Exploring Recent Researches and Explicating Vascular Dementia for Desirable Health” Benevolent response and active participation was received from the Editorial Board Members of supporting International Journals as well as from the leading academic scientists, researchers, research scholars, students and leaders from the fields of Neurology, Neuroscience and neurotherapeutics who made this event successful. The conference was marked by the attendance of young and brilliant researchers, business delegates and talented student communities representing more countries, who have driven this event into the path of success. The conference highlighted through various sessions on Neurological disorders research. Vascular Dementia and Stroke 2019 witnessed an amalgamation of peerless speakers who enlightened the crowd with their knowledge and confabulated on various new-fangled topics related to the fields of Neurological Disorders, Vascular Dementia, Dementia, and Stroke. The conference proceedings were carried out through various Scientific-sessions and plenary lectures. The conference was embarked with an opening ceremony followed by a series of lectures delivered by both Honourable Guests and members of the Keynote forum. We are also obliged to various delegate experts, company representatives and other eminent personalities who supported the conference by facilitating active discussion forums. We sincerely thank the Organizing Committee Members for their gracious presence, support, and assistance towards the success of Vascular Dementia and Stroke 2019.

Tamara McGill-Carter
Chicago School of Professional Psychology, USA

Biography
Tamara McGill-Carter’s expertise is in Neuro-anatomy and Neuroscience with a focus on the intricate workings of the Limbic and Memory systems. Her master’s thesis surrounds Human Memory Encoding, detailing the fundamental changes that create as well as destroy memories. Tammi is currently training to become a licensed Neuropsychologist and is also finishing her final year of the Chicago School of Professional Psychology’s Educational Psychology and Technology doctorate program, due to graduate by next summer. Her dissertation’s focus centers on Autism, Theory of Mind, and Executive Functioning. Tammi’s expertise in neuro-anatomy further expanded while working with individuals with developmental disabilities/delays at several Home Health Agencies, which created several projects centering on how autism and developmental delays affect the brain. Tammi currently holds dual bachelor’s degrees in Psychology from Indiana University Northwest in Gary and a Master’s of Arts degree from the Chicago School of Professional Psychology, the concentration focus being Trauma and Crisis Intervention.
