

A list of all abbreviations and terms appearing in this issue of *Therapy*.

ACT	Artemisinin-based combination therapy	EORTC	European Organisation for Research and Treatment of Cancer	IORT	Intraoperative radiotherapy
AMA	Apical membrane antigen			IPT	Intermittent preventive treatment
AMFm	Affordable Medicines Facility for Malaria	EPI	Expanded Program on Immunization	IPTi	Intermittent preventive treatment in infants
AnAPN1	Anopheles mosquito mid-gut aminopeptidase	FBC	Full blood count	ITN	Insecticide-treated mosquito net
APBI	Accelerated partial breast irradiation	FDG	Fluorine-18-fluorodeoxyglucose	i.v.	Intravenous
ARDS	Acute respiratory distress syndrome	FIND	Foundation for Innovative New Diagnostics	LCD	Low cost and density arrays
ART	Artemisinin derivative	GLA	Glycopyranosyl lipid adjuvant	LC	Liquid chromatography
AS	Adjuvant system	GMP	Global Malaria Programme	MMV	Medicines for Malaria Venture
ASTRO	American Society for Radiation Oncology	GPHF	German Pharma Health Fund	MPL	Monophosphoryl lipid A
CIN	Cervical intraepithelial neoplasia	[Hb]	Hemoglobin concentration	MQCL	Medicine quality control laboratory
CM	Cerebral malaria	HDR	High-dose-rate	MS	Mass spectrometry
CSF	Cerebrospinal fluid	HIPEC	Hyperthermic intraoperative peritoneal chemotherapy	MVI	Malaria Vaccine Initiative
CSP	Circumsporozoite protein	HPLC	High-performance liquid chromatography	NO	Nitric oxide
CT	Computed tomography	HPV	Human papillomavirus	PET	Positive emission tomography
CTD	Control of Tropical Diseases	HRP	Histidine-rich-protein	PFI	Platinum-free interval
DART	Direct analysis in real time	IARC	International Agency for Research on Cancer	pLDH	Parasite lactate dehydrogenase
DESI-MS	Desorption electrospray ionization	IBTR	Ipsilateral breast tumor recurrence	PNG	Papua New Guinea
DFI	Disease free-interval	ICGEB	International Centre for Genetic Engineering and Biotechnology	RDT	Rapid diagnostic test
DIC	Disseminated intravascular coagulation	ICU	Intensive care unit	SAGE	Study on Global AGEing and Adult Health
DMF	Decision-making framework	i.m.	Intramuscular	SBRI	Seattle Biomedical Research Institute
EBA	Erythrocyte-binding protein	IMPACT	International Medical Products Anti-Counterfeiting Taskforce	S-LPS	Staging laparoscopy
EBCTCG	Early Breast Cancer Trialists' Colaborative Group	IND	Investigational New Drug Application	SMA	Severe malarial anemia
EEG	Electroencephalogram	IOERT	Intraoperative electron radiotherapy	TARGET	Intraoperative targeted radiotherapy
EMEA	European Medicines Agency			TBV	Transmission-blocking vaccine
				TLC	Thin-layer chromatography
				TVC	Total vaccinated cohort
				WBRT	Whole-breast radiotherapy
				XRF	X-ray fluorescence
