

Past Conference Report: Robotics & AI 2020

Abstract

With extraordinary help from the Organizing Committee Members, Collaborators and different accomplices, we effectively finished “**International Conference on Robotics and Artificial Intelligence**” which was held as **Webinar** on **July 20,21-2020**. We thank all our Organizing Committee Members, keynote speakers, plenary speakers, youthful specialists, understudies, business delegates, media accomplices and Collaborators for making Robotics & AI 2020 as magnificent and successful occasion.

Robotics & AI 2020 witnessed a good number of attendees from various parts of the globe and sharing their works, thoughts about the current scenario in Robotics and Artificial Intelligence. The conference is based on the theme of “Probing innovations, opportunities in robotics and artificial intelligence”. Deep insights and trends in Artificial Intelligence were discussed among the audience and it paved way for answering many untold questions for the participants and helped them gain vital knowledge. It provides an Opportunity to learn new things and understand the current situation of the market.

We would like to thank our collaborator **Robotics | International Community** to make our event as Successful. We also like to thank the following people who drive this Webinar to a successful one.

- Tim Huckaby, Microsoft, USA
- Luc Rolland, University of West Scotland, UK
- Michael Franklin, Telemetry Data Science, USA
- Sebastiano Galazzo, SistemEvo, Italy
- Bernardo Ronquillo Japón, The Robot Academy, Spain
- Stefano Tempesta, SXIQ, Australia
- Alessandro Gaps, JouleHub, Switzerland
- Malak Trabelsi Loeb, International Business Law and Space Law,UAE
- Håkan Silfvernagel, Miles AS, Norway
- Samar Singla, Jugnoo, India
- Irene Nandutu, Rhodes University, South Africa

.With this note, we would like to heartily invite you to our upcoming 2nd International Conference on Robotics and Artificial Intelligence” which will be held during November 27-28, 2020 as Webinar.

We would like to organize this conference with your support to gather all our researchers in a single platform and this will be the key of success for our next conference.

We look forward to having your presence with active contribution and support to make this event successful once more.

Once again, it's our pleasure to welcome you to our upcoming Robotics & AI 2020.
