

## Past Conference Report on 2<sup>nd</sup> Annual Summit on Diabetes, Obesity and Heart

**Archil Khomassuridze**

Ivane Javakhisvili Tbilisi State University, Georgia

The International Annual Summit on Diabetes, Obesity and Heart was held on July 31st- August 1st 2020 as a Webinar due to the ongoing COVID-19 pandemic.

We represent our Gratitude and sincere thanks to our wonderful Speakers, Delegates, Students, Media Partners and Associations for making Diabetes Congress 2020 Conference a grand Success. We would also like to thank our Organizing committee members for making sure there has been left an Inch of mistakes left in organizing a Conference and making sure that the webinar doesn't affect the Conference in any possible way.

Diabetes Congress 2020 has taken privilege of Honoring Keynote Speakers, Whose talk made this meeting progress in an interesting manner.

The Panel discussion session made an intellectual knowledge sharing experience as this made the delegates to raise their questions towards the speakers. The Speakers were keen enough to answer the queries and raised the standards of the webinar. We would like to give a special thanks all the Delegates who attended the webinar and made sure they don't miss a chance to make use of the webinar.

### **Our Keynote Speakers:**

Lynn Romejko Jacobs | Texas women's university | USA

Gundu H.R. Rao | Thrombosis Research Lillehei Heart Institute | USA

### **Our Speakers:**

Eric E Kelley | Robert M. O'Doherty | West Virginia University | USA

Frederick I Allison | Ugochukwu Duru | University of Port Harcourt | Nigeria

The Webinar ended successfully with a final words from our OCM members which took the Conference to a highly informative manner.

2<sup>nd</sup> Annual Summit on Diabetes, Obesity and Heart | Dublin, Ireland | July 31<sup>st</sup>-August 1<sup>st</sup>, 2020
