

## Recent advances in diagnosis and treatment of CNS Disorders

**Tammi C. McGill-Carter**

Family Focus, Inc, Valparaiso, In Lake County Medical Reserve Corps, Indiana Autism Society of Indiana, USA

We are happy to welcome each and every of the delegates, student participants, speakers, researchers, exhibitors, sponsors and other participants from across the globe to participate in the International 10th Conference on Central Nervous System which is scheduled to be held at Barcelona, Spain during February 05-06, 2020

The conference was conscientiously designed to meet the glorifying expectations of our attendees, and thus offers a fortunate forum that guarantees thought-provoking and path-breaking work on the globe-wide Central Nervous System.

Our main mission is to promote advancement in comprehension of the unblemished science behind the central nervous system riddle. It creates an arena for the neuroscience and neurological researchers.

Our last series of event 9th International Conference on Central Nervous System and Therapeutics happened during June 03-04,2020 with the theme "Reviving Innovations in Treatment of CNS Disorders" extreme response and active participation was received from the Organizing Committee Members of the conference along with the leading academic scientists, researchers, research scholars, students and academicians from the fields of Neurology, Neuroscience and neurotherapeutics who made this event a splendid success.

We expect more participants this year to share their useful expertise with the innovative theme of "Reviving Developments in CNS Condition Care." It is an ideal opportunity for university and institute members to communicate with scientists of the world-class. By registering for the CNS conference along with the intending participants will confirm their participation

This conference will provide a forum for leading scientists, as well as business leaders and investors to share ideas and authoritative views in this exciting area. On this CNS Summit, excellent keynote speakers and well-known leading scientists and experts from around the globe are expected to share their expertise.

Connect your hand with us to maximize your conference theme interactions and catalyze future information sharing to build and celebrate a sustainable new planet.

We are delighted to invite and welcome you to take part in our exciting Conference on the Central Nervous System (CNS). Let's meet in one of the world's most beautiful towns. The proceedings of the CNS Conference were conducted by various Scientific-Sessions and plenary lectures. The conference was embarked upon by an opening ceremony followed by a series of lectures given by both Honorable Guests and keynote forum leaders. The adepts who were promulgating the theme with their excellent speeches and testimonials obtained from the attendants;

### **Past Conference Report:**

At first, we convey our thanks to all of our esteemed keynotes, speakers, conference attendees, students, associations, media partners, exhibitor and guests who made this CNS 2019 Conference as the most successful and victorious event. hosted the event

The International Conference on Central Nervous System during

December 04-05, 2019 at Hotel Holiday Inn Dubai, UAE with the theme "Reviving Innovations in Treatment of CNS disorders". Benevolent and active participation from the Editorial Board Members of supporting International Journals as well as from the leading academic researchers,

Neurologists, Doctors, research scholars, students and leaders from the fields of CNS are the cause to make this event successful.

The CNS Conference was marked by the attendance of young and brilliant researchers, business delegates and talented student communities representing more than 18 countries, who have driven this event into the path of success. The conference highlighted through various sessions on current retroviral research.

CNS 2019 witnessed an amalgamation of peerless speakers who enlightened the crowd with their knowledge and confabulated on various new-fangled topics related to the fields CNS disorders, Neuroscience, Neuro-Oncology, Neuro-rehabilitation, CNS Biomarkers, etc., The CNS Conference proceedings were carried out through various Scientific-sessions and plenary lectures. The conference got underway The opening ceremony accompanied by a series of lectures delivered by Esteemed Guests as well as keynote forum leaders. The adepts who were promulgating the theme with their excellent speeches and testimonials obtained from the attendants;

We are expecting more participants for our upcoming conference with more enthusiasm in young talented minds.
