

New Update about Agri and PlantScience Marketing

Sunidhi Palaria

CCS Haryana Agricultural University, India

A very good day to all the Excellences, Distinguished Speakers, Ladies and Gentlemen.

It is our privilege to address you all on behalf of the conference committee and welcome you all to the webinar on Plant Science and Agriculture Webinar organized by Allied Academies in conjunction with the generous support and cooperation from the editorial board members and from the Journal of Plant Diseases & Biomarkers, Journal of Biotechnology and Photochemistry, Journal of Plant Diseases & Biomarkers and Journal of Agricultural Science and Botany.

And we believe that everyone is staying safe and healthy. We hope soon we will overcome this pandemic.

The world is adapting to the new digital era and following the same, we have now moved our events to digital platforms making it easier for the researcher around the globe and all those who could not make it to the Global Events due to economic constraints get access to such meetings.

To begin with, Allied Academies is a 25-year-old organization which has been working with various researchers to make their research work available to the global scientific community. With various journals and 1000+ conferences till date; we have been trying to bring the scientific community close to each other. Towards the same effort, we have gathered here today for the commencements of the virtual meet on Plant Science and Agriculture 2021.
