

Trends, Solutions and Advancements in Pediatrics Healthcare

Walter Exposito Perdomo

Previsaude, Bissau, Guinea Bissau

It is a great honor to have the opportunity to invite Pediatrician, Pediatric Healthcare Experts, Neonatologist, NICU Nurse, Researchers, Academicians, Scientists, Industry Professionals, students, and other individuals to the 15th International Conference on Pediatrics & Neonatal Healthcare to be held in Paris, France on September 03-04, 2021.

Our commitment to discuss the latest clinical research and scientific innovations with one another will truly embody this year's theme, Advances in Neonate and Pediatrics Healthcare. By sharing research, participating in forums and collaborating with one another, your work will continue to impact many lives and truly benefit the scientific community.

We wholeheartedly welcome you to share your knowledge, experience and creative idea in this conference through interacting with worldwide experts from the field of Healthcare and science. The conference includes keynote forums, workshops, technical oral presentations, video presentations, exhibitions, and poster presentations.

On behalf of the Organizing Committee of Pediatrics 2021, we would like to express our warmest welcome to all of you who are participating in Pediatrics 2021, and I hope you will enjoy your stay in Paris.
