

Decipher the mystified findings on Vascular Dementia and Dementia care

Tammi C. McGill-Carter

Family Focus, Inc, Valparaiso, In Lake County Medical Reserve Corps, Indiana Autism Society of Indiana, USA

We cordially and wholeheartedly invites the participants like delegates, speakers, exhibitors, sponsors, researchers, academicians all over the world to take part in the 14th International Conference on Vascular Dementia and Dementia which is scheduled to be during September 14-15 2020

The conference was conscientiously designed to meet our attendees' glorifying expectations and thereby offers a fortunate forum that ensures that thought-provoking and path-breaking work on Vascular Dementia is performed worldwide. Our main motto is to promote the advancement of efforts to clarify the unblemished science behind Vascular Dementia's riddle, its diagnosis, care and management including an intensive seminar on recent developments in Vascular Dementia's arena. Our last series of event 13th International Conference on Vascular Dementia and Dementia was happened during February 19-20, 2020 at Paris, France with the theme "Exploring Recent Researches and Explicating Vascular Dementia for Desirable Health" The Organizing Committee members of the conference along with the leading academic scientists , researchers, research scholars, students and academics from the fields of neurology, neuroscience and neurotherapeutics received overwhelmed response and active participation which made this event a splendid success. We would like to thank all our prominent dignitaries for presenting us with the wonderful keynotes, speakers, conference attendees, teachers, organizations, media partners and guests for making Vascular Dementia and Stroke 2019 a fruitful and magnificent event. Our organizing committee has hosted the event of 13th International Conference on Vascular Dementia and Dementia during Feb 19-20, 2020 at Paris, France with the theme "Exploring Recent Researches and Explicating Vascular Dementia for Desirable Health" The Editorial Board received active participation from Foreign Journals supporters as well as leading academic scientists, academics, medical scholars, students and practitioners from the fields of neurology, neuroscience and neurotherapeutics, who made this event a success.

The conference was characterized by the participation of young and ambitious scholars, business delegates and talented student groups from more nations, who have moved this event into the direction of success. The conference presented studies on Neurological Disorders across different sessions. The meeting was carried out through various sessions, in which the discussions were held on the following major scientific tracks:

Vascular Dementia

Alzheimer's Diseases

Ageing and Dementia

Dementia Stages

Frontotemporal Dementia

Vascular Dementia Nursing

Advances in Dementia Diagnosis

Dementia Care Management

Neurological Disorders

Dementia

The conference proceedings were conducted through various Scientific-sessions and plenary lectures. The conference started with an opening ceremony accompanied by a series of lectures given by both Honorable Guests and keynote forum leaders. The followers who promulgated the theme with their excellent speech and testimonials from keynote speakers and workshop were; We are also indebted to numerous experts from speakers, representatives from companies and other eminent personalities who sponsored the conference by promoting active forums for discussion. We sincerely thank the leaders of the Organizing Committee for their generous participation, encouragement, and help for the success of Vascular Dementia 2020 With the great success of Vascular Dementia 2020, we are pleased to announce the "14th International Conference on Vascular Dementia and Dementia" that will be held from September 14-15, 2020. Join the global stirring experts and speakers at our Dementia treatment 2020 to learn about emerging advancements in scientific know-how and technologies to boost safety and cure and related innovations. Attending a regional dementia conference gives you the possibility of paying attention to different viewing variables and exploring new concepts and improvements in your work. Moreover, they give you a brand new strategy, different kinds of structures, actualities and researchers you may not have heard of now.

We hope that Dementia care 2020 will allow you to learn a lot of new information and techniques from listening to other presentations, as well as from different universities, institutes and academics. And you could only learn from, or study, foreign locations. Also, give you the opportunity to meet and communicate with scientists and researchers from around the world. Therefore, we hope that all of you will join us and take some time to share your discoveries in the course of Vascular Dementia 2020.

We are pleased to have all the speakers from various sectors and young research forums to develop their research work with the help of other eminent participants
